HUMORS OF THE TIME.

Mrs. Stodger: "How be your wife a-git in' on, Mr Henpeckin?" Mr. H.: "I be most mortal glad, Mrs Stodger, to say she's recoverin' very slowly."

Commercial: "Well, Donald, what shall we say! Business first, and a dram afterwards—will that do?" Donald (licking his lips): "Was your pleesure, I wad say a dram enoo, and business previously."

Lady member of the O'eander. "Thanks, no Algernon; I don't care for the opera. Prefer a quiet rubber. Drop in as you come home and have a cigar in our smoking room, and I'd give you a lift home in the brougham."

Young lady (in carriage): "Her name is Smith. I think her husband is in the artillery. I wish you'd tell her I wish to speak with her." Soldier's wife: "I don't know the lady m'um, which we're in the 'orse artillery m'um, and we don't visit with the field batteries!"

"Can that horse run fast?" asked a boy of a milkman the other morning. "No, sonny," replied the purveyor of aqueous lacteal fluid. "He can't run very fast, but he can stand the fastest of any horse ever you saw.

Placid daughter: "Our stay at uncle's has been delightful, pa. Ma has lost just fifteen pounds!" Irate pa. "Fifteen pounds! How wrong! She knows we cannot afford to lose anything." P. E.: "I mean fifteen pounds in weight, pa, and it was all her own, so it won't come off you."

Miss Nellie: "Yes, the letter is all right, Bridget; but don't wait any longer. If you go down the road you are sure to meet mamma, and then you can tell her yourself what your mother says." Bridget: "Shure an' that's thrue for ye, Miss Nellie; but what shall I tell her if I don't meet her?"

Tasty old gent (at his club): "Conf——. Why the dickens don't you wipe the bottom of the glass before you bring it up? Just get a cloth and wipe——" Waggish waiter: "I didn't understand you to order dry sherry, sir." General titter. Old gent rushes off and writes to the committee.

Kearneyism in California seems to be on the wane. The trouble was with the Lieutenant General himself. He talked too much hemp and incendiarism. The Miners' Union gave the movement its quietus in Nevada. As matters look now, the new party is not destined to cut an important figure, as a separate organization, in the political battles of the present year.—*Eureka Sentinel.*

Owner of race horses: "What do you mean by telling me lies, you little scamp? You told me you didn't fall off Bucephalus this morning, and Brown tells me you did; just as you have done regularly every morning since you have been here!" Embryo jockey: "O sir, don't please sir, I didn't fall off this morning—I was chucked off."

The Carson *Tribune* says: Mohair is raised in this county superior in quality to any ever seen before from any part of the world. Sheriff Swift is busy making the Spring clip of his Angora goats and the wool he is now getting is vastly superior to any he has yet got. Nevada is conceded to be the best goat raising State in the Union.

Baby has begun to learn sacred history, and begs her papa to ask her questions, just to see how wise she is. "Well" said papa, "can you tell me who Adam was?" "The father of all men." "Good; and who was Eve?" After a moment's reflection. "The mother of all women."

"Well, I swan, Billy," said an old farmer to an undersized nephew who was visiting him, "when you take off that 'ere plug hat an' spit two or three times there ain't much left of you, is th.?"

The difference between a boy and a barn is that the shingles are applied to the roof of the barn.

JOHNSON, CLARK & COMPANY,

MANUFACTURERS,

17 New Montgomery St., San Francisco, Cal.

The HOME and HOME SHUTTLE Sewing Machines were awarded the highest prizes and diplomas at the Centennial, 1876, and are the Perfection of Mechanism. These unequalled machines use a straight needle, make the Lock Stitch, have a self adjusting tension, and are adapted to every variety of sewing for family wear from the lightest muslins to the heaviest cloths and will also sew leather. They are especially adapted to the wants of

Tailors, Dressmakers, Seamstresses, Manufacturers of Clothing, Shirts, Skirts, Corsets, Ladies' Boots, Umbrellas, Etc., Etc., Etc.

THE HALL TREADLE

Is the greatest improvement ever invented in connection with the sewing machines, and we being the sole agents for the Hall Treadle have concluded to apply it to every "Home" or Home Shuttle" Sewing Machine sold hereafter on the Pacific Coast without extra charge. (Take notice that every other Sewing Machine fitted up with the Hall Treadle costs $ 2 extra.)

The Home and Home Shuttle Sewing Machine with Hall Treadle attached are the lightest running and superior to any machines, and for all practical working purposes,

Simplicity, Strength and Beauty

They are unapproached by any other Machine yet invented.

The Hall Treadle will be attached to any other machine if desired. Mr Jaquish invites all to visit his place and see how it operates.

DAILY NEVADA STATE JOURNAL

C. C. POWNING, EDITOR AND PROPRIETOR

TUESDAY..... APRIL 9, 1878.

THE DAILY JOURNAL

Is the first daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and hence a general circulation throughout the Slope, it is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL Have a larger bona fide circulation than any two of any interior journal of Nevada, excepting the Enterprise of the Comstock.

NEWS OF THE MORNING.

It is rumored at Athens that England will occupy the Island of Crete.

William Myers has been appointed post-master at Ruby Valley, Elko county.

A big plot to counterfeit Ophir stock has been discovered in San Francisco.

Ex-Governor Moses, of South Carolina, has been arrested in New York for forging a note for $316.

G. K. Clark, jr., a Detroit grain dealer, has disappeared, leaving debts aggregating $22,000.

It was rumored yesterday that Mr. and Mrs. Theodore Tilton had become reconciled to each other.

The Russians are desperately urging the Sultan to surrender his ironclads and positions on the Bosporus.

Mlle. Volante, who was fatally shot on the Opera House stage at Pawtucket, R. I. died Sunday evening.

Russia has "hopes of peace," and England is "not anxious for war" are the latest telegrams from the seat of war.

An insane pauper set the Steuben county, Maine, poor-house, on fire, and fifteen inmates perished in the flames.

Geo. C Gorham is out in a long letter defending straight-out Republicans, and depreciating Liberal Republicans.

Col. Mercer, in address before the New York Press Club, says there are 250,000 bachelors west of the Rocky Mountains.

It is now thought Blair's move to unseat Hayes must fail, because the Judiciary Committee are opposed to the scheme.

It is stated that Russia has officially offered to quit the neighborhood of Constantinople if the British fleet withdraw.

It is announced from Constantinople that the current of feeling in the Turkish Government is now running wholly against Russia.

The steamer Agnes, from New York for Cedar Keys, went ashore sixty miles south of St. Augustine on the 3d. No lives were lost.

Secretary Sherman and J. Madison Wells have had an acrimonious interview. Wells is angry because Hayes didn't keep him out of prison.

A dispatch from Belgrade says Austria has prohibited all Servian imports, because of the prevalence of rinderpest and spotted typhus.

Italy is endeavoring to induce the Porte to suspend hostilities in Thessaly, alleging fears of grave complications. Greece is similarly endeavoring to influence the insurgents.

The San Francisco Trades Union Convention met and adopted a constitution, and agreed, in case of strikes, to pay $9 to married and $6 to single men per week, after the first week of any strike.

Gus Botto and Mr. Bigelow, owner of Bigelow Hall, Eureka, had a shooting scrape last Saturday night over some reserved seats for the Female Minstrels, in which Botto was killed. Bigelow is in jail.

Great Britain has another war on her hands in South Africa, one of the hostile chiefs, Secocoeni, having broken out in a fresh insurrection. This is an insignificant affair, however.

It is announced that the great trotting stallion Smuggler, who has a record of 2:15¼, will not be run this coming Summer, but will make the season at the Wilson Abdallah Park, Cynthiana, Kentucky. He is now en route from California and is expected to arrive this week.

Leading Democrats of Chicago have telegraphed Carter H Harrison urging him and other Democratic members of the House to use their influence for the election of General Shields as Doorkeeper of the House of Representatives, and, if possible, defeat the Democratic caucus nominee.

THE NEW DOLLAR.

There were 132 coins made at the Carson Mint in March, the time was occupied in the preparation of blanks for the 412½ grain dollars, the dies for which arrived April 6th. The Carson Mint, we believe, has 500,000 ounces of silver for coinage into the new dollar. This silver has been prepared in suitable blanks for the dies, and there will be some rivalry between Superintendents Crawford and Hodgman as to which Mint on the Pacific coast will turn off the first of the new coins.

BY POPULAR VOTE.

It will be very satisfactory to the people to vote for President under the plan proposed by the House Committee on revision of the laws regulating the counting of the Electoral vote for President and Vice President, which has agreed to a provision that it shall be done by a direct vote of the people. United States Senators should be elected in the same manner.

The Supreme Court has reversed two decisions of the District Court of Storey brought to recover certain sums due on bullion tax account. Leonard and Beatty did the reversing while Hawley dissented. The latter is a candidate for re-election. It would be uncharitable to say this looks like an attempt at vote catching, and we most emphatically decline to say it.

We are surprised that the Eureka *Sentinel* should publish the above. Tom Hawley is not that sort of a man. He is not so anxious to retain his seat on the Bench that he would resort to low cunning. He would decide as he understood the right, no matter what the consequences personally. In this case it was simply an honest difference of opinion between honorable Judges.

INTER OCEANIC CANAL.—Rear-Admiral Ammon, of the Navy, has addressed a letter to Judge Daly, of New York, President of the American Geographical Society, giving the result of the recent survey of the various proposed inter-oceanic canal routes across the Isthmus of Darien and Panama and the Nicaragua routes, which affirms the correctness of the surveys made by the officers of the American navy, but which has been disputed by civil engineers who are members of the French Geographical Society. The recent results show that the French geographers assumed an initial standard which was found, on actual tests, to be wholly at variance with the facts.

LADIES IN THE LOWER LEVELS.—Hardly a week passes that ladies do not visit the Consolidated Virginia and California mines and descend to the lower levels, says the *Enterprise*. All come to the surface swearing (figuratively speaking) that it is "just lovely down there," and they "wouldn't have missed seeing it for the world." As soon as they get their nerves calmed down a little and have ceased trembling, they assure such of their sex as have not had the courage to venture down that it is a "real pleasure to make the trip."

THE NEW TRINITY.—The *Enterprise* believes that the workings of the Silver bill have thus far been most satisfactory, and specie resumption on the 1st day of January will be carried through without any embarrassment to the Government. In the meantime the price of silver will advance, and before a twelvemonth we shall have what was never before known on earth—a grand, coequal financial trinity—gold, silver and greenbacks.

ON THE 2000 LEVEL.—On Saturday a drift was started east on the 2000 level of the Ophir for the ore body. It will reach the east ore vein in going a distance of about 892 feet. It will be pushed forward as rapidly as possible. It will pass through hard vein porphyry the whole distance. However, on the 1900 level some small streaks of quartz were cut through that may be found to widen and make ore on the 2000 level.

THE sale of public lands yielded in 1874, $1,852,428; in 1875, $1,413 647; in 1876, $1,129,466; and in 1877, $986,253. This is an average of about $1,342 000 a year. Under the proposed law, giving the proceeds of the sale of public lands to the school funds of the different States, this amount would be distributed to the States.

THE British army in India is composed of 146,000 infantry, 23,000 cavalry, 3,000 engineers, 13,000 artillery and 400 field pieces.

GRAND PROJECTS FOR THE DEVELOPMENT OF PERU.

W. H. Chilly, of Lima, the partner of the late Henry Meiggs, the great Peruvian railroad builder, is in Chicago. A dispatch says he has in hand the gigantic enterprises undertaken by Meiggs, and is here to purchase railroad material and mining machinery. He is full of projects for the development of Peru. He has one road that he is pushing across the Andes from Callao and Lima to the great wheat-producing country on the east side of the mountains. At present only enough grain and other products are grown in this rich country for domestic use, owing to the difficulty of taking it to market, it having to be transported across the mountains to the coast on mules and llamas. When the road has climbed the mountains Mr Chilly is sure that a new granary for the world will be opened. A great number of machines are already being taken to Chili. The railroad will be completed in a year. He, like Mr. Meiggs, has large interests in silver mines in connection with his railroad enterprise, which, he says, will cast the bonanzas of Nevada in the shade when developed. There are copper mines of vast wealth, also, which are opening up. He is positive that a great chance is open to North American merchants, if they will only take the trouble to send their agents to Peru and introduce their products. As it is, the English almost exclusively control the trade.

BLAIR'S SCHEME.—The New York *Tribune's* Washington correspondent has interviewed several Senators on Blair's Maryland resolutions to unseat Hayes. Davis and Morgan both agreed that the Supreme Court of the United States, if the case was brought to its attention, would hold that Congress has already exercised its reserve power under the Constitution to settle the Presidential difficulty by the creation of the Electoral Commission. Neither of them is in favor of reopening the electoral controversy, especially with the moral certainty that any decision given by the Supreme Court would be adverse to the Democrats.

THE ladies of Silver City will give a festival and calico party on the evenings of May 8 and 9 for the purpose of raising money with which to pay off the indebtedness of Grace Church.

Mexico has almost ceased her outrages on the United States borders.

BUTCHERS SOLID ON BEEF.—The butchers of the Comstock range have perfected their new organization. Under the new rule of the Butchers' Association the following scale of prices has been agreed upon and signed by the proprietors of all the meat markets:

FOR BOARDING HOUSES — Chuck, loin and round steaks, pork, veal, mutton and sausage, 12½ cents per pound; good loin and sort rib steaks, lamb by the side, whole joints, six and seven rib beef, mutton, pork, etc., 15 cents per pound. Chop house meat is all 20 cents per pound.

FOR PRIVATE CUSTOMERS—Prime ribs, loin steaks, pork and sausages, 20 cents per pound; porterhouse steaks, 25 cents; round and chuck steaks, mutton chops, corned and boiled beef, 12½ cents; tongues; 75 cents; veal cutlets, 15 to 25 cents; leg mutton, 15 cents; lamb, forequarter, 20 cents, hindquarter, 25 cents; sheep tongues, 75 cents per dozen; beef heads, 25 cents.

A WONDERFUL circumstance occurred in Watsonville lately. The *Pajaronian* thus relates it:

To begin with, a gentleman well known in this section owns a lot of hens. One of them a few weeks ago commenced laying in the wood pile, her nest being situated between two sticks of wood, placed far enough apart so that as fast as an egg was laid, it would drop upon the ground, at least two feet below. After laying twelve or fifteen eggs, the hen commenced setting on the hole between those sticks of wood, the eggs being on the ground below, two feet distant. Three weeks passed by, and eleven of those eggs hatched success fully! Will some scientist explain the phenomenon?

THE Lyon County *Times* of last Saturday says:

The butchers of Silver City have given notice that on Monday next the price of meats will be advanced about twenty five per cent. according to one report we have heard. This is the result of a combination of butchers on the Comstock, and prices are to be advanced in Gold Hill and Virginia as well. This action will be oppressively felt in Silver City, owing to the dull times, and we already hear mutterings of complaint and inquiry as to how the people can escape this additional expense. There is a fine opening here for Messrs Winzell & Campbell, the enterprising Dayton butchers, to afford our people relief and work up a profitable trade.

THE LATE MARK HOPKINS.

Resolutions of Respect Adopted by the Directors of the Central Pacific Railroad.

The following resolutions have been adopted by the Board of Directors of the Central Pacific Railroad Company in token of their high appreciation of the character and services of Mark Hopkins, deceased, late Director and Treasurer of the company, and in respect to his memory:

WHEREAS, It has pleased the Almighty in His wisdom to remove Mark Hopkins from his family, social and official associates; and

WHEREAS, He was one of the incorporators of this company, and thereafter, until his death, one of its Directors and its faithful Treasurer; now therefore,

Resolved, That we, his former associates in the Directory of this Company, do hereby tender to his widow our heartfelt sympathy in her great sorrow and bereavement, and beg leave in this manner to give expression to our great respect to his memory, to our appreciation of his character and services, his sound judgment, far reaching sagacity, earnest industry, spotless integrity, tenacity of purpose, firmness in action and modest reticence in the faithful performance of duty in every walk and relation of his life.

Resolved, that in the death of Mark Hopkins this Company has sustained the loss of a wise, efficient and faithful officer, always devoted to its interests and untiring in its service.

Resolved, That the Secretary be and is hereby instructed to forward to Mrs. Hopkins a certified copy of the foregoing preamble and resolutions, with the seal of the Company thereto attached.

By order of the Board of Directors, entered on the 31 day of April, in the year of our Lord, one thousand, eight hundred and seventy-eight.

OLD CAMPS REVIVING.

[Aurora Herald, April 6th.]

Many of the old and for many years nearly deserted camps and mining districts in this State and California are looming up and are being discussed by men who are ever on the alert for opportunities to invest in mines and mining. Recently the Eberhardt and Aurora tunnel at White Pine struck a fair ledge at a depth many feet below any former workings on the Pogonip. The importance of such a development can not be too highly estimated. Should it prove, on further prosecution of the work, to be extensive and of such character of ore as was found in the upper portion of the mountain many other companies will immediately begin operations in deserted mines in and around the White Pine country. In our own immediate vicinity we are eagerly watching for developments of a like character, and should the company which is now pressing work vigorously on Last Chance hill succeed in striking the ledge at a sufficient depth to insure permanency of ledge matter, it will immediately give an impetus to many other mining organizations which at present are only awaiting the first sound of the good news. There are hundreds of mines here which in days gone by yielded immensely, but their wealth was taken from near the surface. As depth was reached, the crude and imperfect manner in which they were worked made light dividends, and that, added to mismanagement, soon shut down their mills and ceased operations in their ore producing stopes. Aurora's future to a certain extent, is governed by developments of the near future; but, notwithstanding the fact that nothing of a remarkably rich character may develop itself in the present prospecting being done, it has enough of ore in sight in its old mines that were abandoned and left, in many instances, by their owners to seek newer and supposed to be richer camps, to make it a bullion producing camp for a long time to come.

PATRONIZE HOME BUSINESS.

The people should patronize home merchants and industries and keep the money in the country. It causes a general stagnation of business and makes times harder and money scarcer to have people send abroad for everything they use or consume. We have extensive establishments at home, which can sell goods as cheap as they can be brought from abroad, and give the purchasers the advantage of making their own choice and knowing what they are buying. It is the quickest and surest way known to kill a town and prevent competition, to send abroad for everything you want. Your money is sent out of the country and not a cent of it returns in taxes or any other way. By buying at home and increasing the sales of merchants you enable them to sell cheaper, as they can then make larger purchases and afford to sell at less prices. Home merchants and business men pay taxes, help build up the country, give employment to mechanics and laborers, who in turn spend their money and thus increase the wealth and prosperity of the community. Let "live and let live" be your motto. Patronize each other in every possible way and spend your money in the community in which you make it. By doing so a part of it may find its way back to your pockets, and it will directly or indirectly benefit your neighbors, but if you send it abroad it is gone forever. Spend your money at home and never send abroad for what you can purchase in the town in which you reside, and times will improve.

HUMORS OF THE TIMES.

The five-year-old daughter stood watching her baby brother, who was making a great fuss over having his face washed. The little miss at length lost her patience, and, stamping her tiny foot, said, "You think you have lots of trouble, but you don't know anything about it. Wait till you're big enough to get a lickin' and then you'll see—don't he, mamma?"

A popular doctor of Utica while escorting a lady home the other evening, attempted to relieve her cough and sore throat by giving her a troche. He told her to allow it to dissolve gradually in her mouth. No relief was experienced and the doctor felt quite chagrined the next day when the lady sent him a pantaloon button with a note saying he must have given her the wrong kind of a troche, and might need this one.

The Episcopalian has been figuring up Job's wealth, and estimated that he was worth $679,000 before his reverses. $370,000! And that was all of Job's boasted wealth! Poor old man. Why, there wasn't enough for his children to quarrel over, if they hadn't died before the will was probated. $370,000. Why it's a poor bank cashier that can't run off with more than that now, and he doesn't get his name in the bible for it either.

Many mothers are either compelled to stay away from church and theater, or take their babies with them. A poor woman took her little one in her arms to hear a famous preacher. The loud voice from the platform awoke the child and made it cry, and its mother got up and was leaving the hall when the minister stopped her by saying: "My good woman, don't go away. The baby doesn't disturb me." "It isn't for that, sir, I leave," she replied with a perfect unconsciousness of sarcasm, "It's you disturbs the baby."

A clergyman in one of the Hudson River towns united a German couple in marriage. When the knot was tied, the bridegroom said: "Dominie, I've got no money, but I'll send you von leetle pig." It was done, and the circumstance was forgotten by the clergyman. Two years afterward he met the German in another town, for the first time since the marriage ceremony was performed. "Dominie," said the German, "you remembers you married me, and I gave you von leetle pig?" "Yes." "Vell, if you'll unmarry me I'll give you two leetle pigs."

A reverend doctor who preaches not a hundred miles from the Temple has a considerable weakness for clergymen of color, and on a recent occasion gave in honor of three or four of them a dinner, to which he invited some of his distinguished fellow-laborers in the vineyard to meet them. The dinner hour came and the white parsons along with it, but though host and guests waited three quarters of an hour, not a black one one appeared. The host thereupon sends for the servant, and asks whether any one has called. "No one, sir, not one," is the answer, with which the doctor being dissatisfied proceeds to cross examine, and it after some time occurs to the servant to say, "No one, sir, indeed no one has called except some Christy minstrels, and I soon got rid of them."

NOTES ON EDUCATION.

An elective course in Chinese is proposed at Harvard.

The students of Columbia College are happily opposed to hazing.

A compulsory education bill was passed by the Wisconsin Legislature recently.

The University of Chicago needs $135,000 to pay its debts, and $300,000 for endowment.

The Connecticut Senate has passed a bill restoring the old system of raising school money by district tax.

The Central Ohio Science Association intends to accomplish much outdoor work in the coming Summer. It will travel through the State with competent professors.

The Leavenworth Superintendent of Schools says, with very great truth, that the primary fault with all graded schools is that there is too much system and they 'are made' manufactories.

The teachers of Ohio, Indiana and Michigan have formed a tri State Teachers' Association, which held its first meeting in Toledo recently. Their object is an interchange of opinions and statements of methods and results.

A petition from Chinese merchants for a separate school for Chinese children in San Francisco has been laid on the table by the California Legislature. One of the grounds on which the petitioners asked for school privileges was that they pay annually over $12,000 in taxes.

The State of Virginia has at present no resources with which to make Mr. McCormick's gift of a telescope to her university available. It has been accepted, however, with gratitude and a promise to make, as soon as possible, due provision for housing and using the instrument.

The study of grammar in the schools is called, by the Boston *Herald*, time almost absolutely wasted. It adds, and not unwisely: "No text-book in grammar should be used in the lower schools; the teacher should be the science and the children his illustrations. Every lesson should be an exercise in language, and, were it so, no boy or girl would reach the age of discretion without the ability to express himself or herself correctly and clearly."

THE Truckee *Republican* says Mr. John Gray, late of Austin, will enter into the practice of law. Whether he will make Truckee or Reno his permanent residence has not yet been determined.

ORIGINAL with the JOURNAL—"Ning Pow notes."—*Gazette*.

If the *Gazette* would take out its "dead" ad's it would have more room for some kind of notes more interesting than the usual run of its matter.

THE ranchmen around Huffakers are busily engaged in sowing their Spring wheat, oats, barley and other crops. All looks favorable for the farmers except that the ground is rather dry.

COHN, of Cohn & Isaacs, went below last night, after new goods. Nathan follows him to-night. The clothing war will be renewed when they return.

MISS VANCE, Miss Frankie Grippen, Miss Callie Stuart, and Edward Barber each received second grade certificates last Saturday, from the County Board of Examiners.

A SOCIAL of the ladies of the Congregational church will be held this evening at the residence of Mrs. Peer. A cordial invitation is extended to church and congregation.

JOLLY Jim Ferguson was up from Wadsworth yesterday, nothing new down there—except his cat had seven kittens a few minutes before he left home.

BILL GETCHELL says he will save the young one for another Yardmaster for the Railroad Co.

FRIEND Cobb is down from Franktown. Everything quiet on the Potomac in that section.

STOCKMEN should read the rodeo notice among our new advertisements.

STOCKS were a little off yesterday

Personal.

Fred Wetherill was to leave for Paris last night, and we suppose he did. Hope Fred will have a pleasant time.

C. F. McGlashan and wife, (late Miss Nonie Kaiser,) of Truckee, were in town yesterday on a wedding tour. Mc. has a coast reputation as a writer.

Mr. Garfield, Gov. Bradley's Private Secretary, was in town Saturday and Sunday. He was evidently trying to ascertain how a "third term" would take here.

W. Frank Stewart is in town, being a witness in the mining case before the District Court. What Frank can't tell them about dips, spurs and angles is hardly worth knowing.

Tom Fox, of Gold Hill, was in town yesterday. He says he is not a candidate for Governor. If the Democrats should nominate him by acclamation he might accept the nomination. But he is not hunting any office.

Mayor Belknap, of Virginia, is here, being principal attorney for the Cable Con. in its suit with the Golden Fleece. Of course the Judge would like to see the "old man" have a "third term," but we think the Democrats would do a great deal better if they would nominate the son-in-law.

Bob Hoy returned yesterday morning from a trip to Southern California, and reports having had a splendid time. At Santa Barbara he found John Hunter, one of our old timers. John has a fine little ranch, is interested in and a Director of the First National Bank of that town, and is happy and content

Complimentary.

The Elko *Post* very kindly says:

The Daily Nevada State JOURNAL published at Reno, has entered upon its ninth volume and fifth year. It is a good paper, carefully managed by its wide awake proprietor, and is justly regarded by its supporters as an able representative of the interests of Washoe county. May the JOURNAL live long and continue to prosper is the wish of the *Post*

The White Pine *News* also gives us this friendly notice:

The Reno JOURNAL has entered upon its ninth volume It is always newsy, and watches with jealous care the interests of Reno and Washoe county May it long continue to live and prosper.

The Carson *Tribune* has this:

The Reno JOURNAL, which has recently entered on its ninth volume, has considerably improved of late. Powning is stirring himself, and giving the Renoites a bright, newsy paper.

The Proper Place.

"Freighting is dull. Most of the freight for the Valley is first shipped to Reno to go that route, on account of the bad condition of the roads. The T L Co. ship on an average four car loads daily of lumber, boxes, furniture, &c." Thus the Truckee *Republican* admits that Reno is the proper place from which to forward supplies to the northern country. There is no doubt of that fact. The Reno roads are always in good condition, Summer or Winter.

District Court.

In the District Court yesterday the following business was transacted:

The parties indicted by the Grand Jury, plead "not guilty."

Merrill vs Lamb—Demurrer overruled; ten days to answer

Golden Fleece vs. Cable Con. M Co, Jury empaneled and trial proceeded with. R. M. Clarke appears for plaintiffs, and Judge Belknap and Boardman & Varian for defendants

Business Change.

N. J. Salisbury has sold out to Messrs. Cunningham and Winchell, late of Sierra Valley, and two good men for citizens of Reno. They will endeavor to maintain the reputation of the old store by keeping a first-class stock of goods, and selling at popular prices. We wish them the best of luck.

Mollie's Race.

Mr. Winters sends us word that Mollie McCarthy will leave in about four weeks to meet Ten Broeck in a four-mile and repeat race for $10 000, at Louisville on the 4th of July next. Mr. Winters has made all of the preliminary arrangements, and will go on to Louisville himself some time in June.

Grand Time.

The Masonic chapter of Reno will have a jolly time on Thursday night. Delegates from Carson, Virginia and Truckee will be present and assist in conferring the 7th degree; after which there will be a banquet, etc.

Bullion.

Sixty-five bars came down from the California last evening, valued at $202,724.82, which is the first shipment of the fiscal month.

THE WOOD BUSINESS.—The *Enterprise* of Sunday has the following of local importance:

There now remains at the wood-yard at Huffaker's station about 5,000 cords of wood. The flume at that point will resume operations about the 1st of June. There are in the mountains about 75 000 cords of wood to be sent down this flume. The flume at Washoe City is to be abandoned, there not being enough wood at its head to justify keeping it up. The greater part of the wood supply this Summer will come from about the Clear Creek country, satisfactory terms having been made with Yerrington & Bliss and other large wood owners in that direction by the bonanza people. It is said that there is in this part of the Sierras wood that has been cut and corded up for the past five years. It should be good and dry by this time.

DEPUTY COUNTY CLERK MANN has been admitted to practice before the Supreme Court. We expect the Major will soon hang out his shingle.

QUEEN, the druggist, has just received a fine lot of Vick's flower seeds. Go and get some.

THE white ribbons are the latest. They signify "No Tobacco."

GRAND PRIZE.—During the month of March the Grand Prize Company shipped only $68 494 43, which is the lightest shipment made in a long time. The *Times Review* says the cause of this is that the water was so hard to handle that during the entire month only enough ore could be hoisted to run ten stamps. Now the other ten stamps are in operation, and there is every probability of keeping them going; hence the shipments will be much heavier.

Col. O. L. Shepherd, a retired U. S. officer of Newport, R I., has been sentenced to one year's imprisonment and the return of the money which he withheld from the contribution of fellow-officers to erect a monument on the Stone river battle ground—$1,003. with interest since 1864 The President approves the sentence.

THE Judicial Commissioners, consisting of District Judges Dwinelle, Daingerfield and Morrison, held a meeting Monday and appointed Richard P. Hammond, William Alvord and Robert J. Tobin as a Board of Police Commissioners under the new law, for San Francisco.

A train of nine cars loaded with live oysters in the shell passed through Omaha Saturday evening en route from New York to San Francisco, where they are to be planted.

THE complete returns for March from the Tybo Consolidated are now at hand, and the total is $99,122 against $100,700 for February and $93,500 for January.

THE Standard Mining Company have declared a monthly dividend of $1 per share, payable on the 12th.

The Germans are making large additions to their war navy Nine small vessels are to be commenced on April 1, and will be used principally as training ships, etc., and three large ironclads and the splendid new Imperial yacht, the Hohenzollern, in May.

RETURNED.—Mrs. Julia J. Prescott has just returned from San Francisco, after a careful inspection of all the latest novelties in the line of fancy goods and millinery. Mrs. Prescott congratulates herself that her labors to supply the ladies of Reno and vicinity with the latest styles have been appreciated, and her recent visit of four weeks to the city of San Francisco has been purposely prolonged that she might study and select the exquisite Spring and Summer styles which she now offers to her patrons. Her prices are lower than ever, to suit the hard times, and the goods are now displayed at her establishment on Commercial Row. The ladies should call. *

C. A. BRAGG & Co. are in receipt of a stock of moth proof carpet lining. It is serviceable not only as deadening, but excludes vermin, prevents the uneven wear of carpets, keeps out cold air and the dampness which arises from cellars, thus adding to the healthfulness and warmth of a house and saving fuel. It can be used year after year without any additional expense whatever. The cost saved twice every season in wear of carpets. Call and examine. *

DRY GOODS.—Grey & Isaacs' new Spring stock of dry goods, carpets, wall paper, etc., just received direct from New York, is the largest, choicest, most complete and cheapest in the State. Importing our goods direct we can offer extraordinary inducements in all departments. Mme Demorest's new Spring patterns just received. *

"CENTENNIAL" SEED POTATOES.—These will yield 20 tons to the acre in good ground. They took the first premium at the last State Fair. Price —25 cents per pound. Raised by H Wright, Sierra street, Reno. All orders left at John Sunderland's store will receive prompt attention. *

TREES AND PLANTS.—Stephen Connor of the Reno Nurseries, has 50,000 fruit, shade and ornamental trees and plants for sale, embracing every known variety, and warranted to be in first class condition for transplanting. Will be sold at very low rates.*

MOVED! MOVED! MOVED!—The City Drug Store will now be found on Commercial Row, where we will be pleased to see all our old patrons and as many new ones as have any use for anything in our line. New drugs and medicines, and sold very cheap.

Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretion will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN,

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Dr S will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs

PROSPECTUS OF THE 9TH VOLUME,

1878-9.

THE ALDINE,

THE ART JOURNAL OF AMERICA.

SOLD ONLY TO SUBSCRIBERS.

Complete in 24 Parts, at 50 cents each.

ISSUED MONTHLY.

It is the purpose of the publishers to preserve in this its work of THE ALDINE as an exponent of Art Work, free from competition and to spare no time thought nor expense to still further beautify and improve the broad pages of the work.

While urging the necessity of cultivating a taste for the beautiful in Nature and Art, THE ALDINE has not been unmindful of the force of example and illustration, therefore it has been a constant study to show, in the pages of its work itself, that proper value of so certainly consequent upon sincere devotion to such subjects. As in the past, so in the future THE ALDINE will continue to be an example of the progress and refining influences of correction and association with the beautiful and true.

The volume now in preparation while it will not suddenly depart from the general course of its predecessors, will present many modifications and improvements, the result of study and experience to fit the THE ALDINE to worthily maintain its position as "The Art Journal of America."

In the more mechanical department of the arrangement or make up, changes, in themselves slight, will largely enhance the general beauty of the pages, which had already won admiration so hearty and universal.

Editorially, THE ALDINE will deal broadly and fairly with Art in general, the American art in particular. Carefully prepared papers will keep the reader well informed on all art topics of the important Art centres of this country and Europe. The important exhibitions will receive full and timely notice and artists who achieve or have won for them the right shall be introduced and given a proper personality by the aid of graphical and critical. It will be the purpose of the Editor to earn for the Critical and Literary Department of THE ALDINE a reputation in every way worthy of its established admitted eminence.

The Art Department of this volume will be rich in representations of American natural scenery than any of its predecessors. To add a popular decision on the claims of rival localities to the title, "The Switzerland of America," our artists are exploring the wonders of these regions of our country which have more recently been brought into notice. The Yosemite and the Yellowstone, the Sierras and the Rockies, shall be brought home to the patrons of THE ALDINE—but not to the exclusion or neglect of our glorious old Alleghanies and their more familiar surroundings.

Experience and capital largely increased by the liberal patronage of an appreciative public, has made possible the introduction of greater system and plan in selecting the Art exhibits, so as to better cover all creditable ground, enabling a harmonious and judicial combination or progression so to speak, through the wide world of Art. Examples by figure animal and landscape painters of every school—ancient and modern, American or foreign—will appear with all the old refreshing variety, but with an added advantage of more deliberate arrangement and definite purpose, to instruct and inform as well as to delight.

PLAN OF PUBLICATION.

THE ALDINE volumes will, in future be completed in 24 parts at 50 cents each, published monthly and sold only to subscribers for the complete volume. Subscribers will pay on delivery for the parts actually received, and no canvasser or deliverer is authorized to vary these terms in any way or to make any representations on the faith of the publishers outside of the regular prospectus. THE ALDINE will not be sold by book or news dealers generally

Any person desiring to act as the agent for any particular locality should apply promptly, giving full particulars as to business, references and territory desired. Liberal arrangements will be made with the best parties.

Having arranged with a well know and responsible house, Messrs James T White & Co of San Francisco, for the sale of THE ALDINE on the Pacific slope, the publishers are now able to assure the friends of THE ALDINE of prompt service of the parts as issued, and the satisfactory completion of all subscriptions. The parts, bound or separate, from January, 1874, to date are always in stock and can be supplied, on application, at the regular rates.

The publishers ask with confidence the continued favor of the Western public for THE Art Journal of America, of which a prominent feature shall always be the appropriate illustration of the fresh glories of our occidental territories.
